

Projects

Linkedin → Name of the Project

March to June (2024)

- 1) Analysing linkedin Job posts based on some given parameters.
- 2) The data was to be fed to an AI Tool named "COACH".
- 3) The Tool was meant for ^{solely} helping job seekers as well as employers in job search unbiasedly across countries. It was on a Beta phase (testing period prior its release in the market)
- 4) My job responsibilities was to ~~How~~ thoroughly evaluate the job posts and rate it on a scale of 4 accordingly.
- 5) Undergone a basic preliminary thorough training on Gen AI.
